

# Stephen Gately, If You Were Mine

.from the said and done album (1995).written by joey balin/andy hill.

I see what he's doing to you  
And it hurts me so  
I wish I could steal you away  
But you just won't go  
Something's holding you close to him  
Something I can't see  
But come that day when you've had enough  
I pray you come running to me...

Cause if you were mine  
You'd know how good love could be  
And if you were mine  
I'd love you eternally  
If you were mine

You know that I want you  
You know that I need you

Every time I see your face  
It lights up my day  
But I watch you passing me by  
And my sky turns grey  
Maybe someday you're gonna see  
I'm the one for you  
Till then I'll just have to wait  
For my dreams to come true...

Cause if you were mine  
You'd know how good love could be  
And if you were mine  
I'd love you eternally  
If you were mine

My friends keep telling me - let it go  
But what I feel they'll never know  
I can't stop my heart's beating so strong for you  
But you're with him and not with me  
Baby it's as sad as it can be...

Cause if you were mine  
You'd know how good love could be  
And if you were mine  
I'd love you eternally  
If you were mine

I really need you girl...  
You know I really need you...

Cause if you were mine  
You'd know how good love could be  
And if you were mine  
I'd love you eternally  
If you were mine
