

# Stephen Lynch, Gerbil

I bought a gerbil from the petting zoo  
If Richard Gere can do it I can too  
I get undressed, start to lube  
I stick the gerbil in the end of the tube

Wondering just how he'll feel  
Will he like it better than his little wheel  
Careful now he's right beside me  
One more inch and he's inside me

Go, gerbil go  
Burrow harder, burrow deeper  
Be my little chimney sweeper  
One thing I forgot about  
How am I supposed to get you out?

So now my Gerbils on easy street  
It's warm and cozy and there's plenty to eat  
The situation is beyone my control  
Gotta find a way to get him out of his hole

I try crowbars, I try wires  
I almost had him with a pair of pliers  
I try cheese but he's not biting  
I wish this wasn't so exciting

Go, gerbil go  
Jesus I am such a sucker  
Please get out you furry fucker  
I think I am getting ill  
Suddenly he's very very still

Now it's too late  
My gerbil died  
I guess I have committed gerbicide  
Here's some advice  
It's very clear cut  
If you love your gerbil  
Don't stick him up your butt  
Don't stick him up your butt  
Little furry gerbil in your booty hole  
Don't stick him up and you put him in the end and he won't come out  
Yeah
