

Stephen Marley, Winding Roads (feat. Jack Johnson)

I seen the paved highway, but none of them is headed my way
How long must we trod these windy roads?
How long must we trod these windy roads?

You struggle so hard, oh good people, I'll help you carry your load
How long must we trod these windy roads?
How long must we trod these winding roads?

I hear you voice when you say, none of them are coming my way
How long must we trod these windy roads?
How long must we trod these winding roads?

Maybe you hear me too, I could sing to you when you're low
How long must we trod these windy roads?
How long must we trod these winding roads?

Kind of amazed, but not much surprised, seems I've lost my way
How long must we trod these windy roads?
How long must we trod these winding roads?

Had enough worry, had enough struggle, I opened my eyes and see
How long must we trod these windy roads?
How long must we trod these winding roads?

Opened my eyes and see
Opened my eyes and see
