

Stephen Simmonds, If I Was Your Man

Oh if I was your Man

Take a look around
Tell Me are you down
Or do you feel like your alone in this town
Players come to play but there not here to stay
I can love you better in every way
alright now

It will all be different
Girl you don't understand
Id give my soul if I was your man
Tell me how your living cause I got the master plan
I'd take control if I was your man

I've been thinking about somebody tell me now,
How's she got me open cause its freaking me out
You make me lose my cool with the things you do,
girl your my religion I'm believing in you
You may think I'm not your kind
Believe me girl if you were mine,
you'd feel the same way that I do
I'd show you the love that you never knew

It will all be different
Girl you don't understand
Id give my soul if I was your man
Tell me how your living cause I got the master plan
I'd take control if I was your man
