## Stephen Stills, Rollin' My Stone

by Stephen Stills and Fuzzy Samuel

Can you see them runnin' their games on my mind See the wasted energy flyin' by Whispering shadows standin' somewhere close by Don't mean nothin' to me I can't see your eyes

Somebody rollin' my stone How could you leave me alone Oh darlin' you're on your own Nobody rollin' my stone On down the road

And I know I've done the same sort of thing Hidin' inside myself, can't find my way out again And the world can get so twisted from Mary Jane Lookin' back it seems so ridiculously insane

Somebody rollin' my stone How could you leave me alone Oh darlin' you're on your own Nobody rollin' my stone On down the road

So then what have I got to say to you Nobody's tryin' to tell you what to do Then they know when you think of something new Why are you sailin' with that fair weather crew
