

Steppenwolf, Faster Than The Speed Of Life

Ride the waves of everlove
Let them throw you on the beach
Gathering experience
While it's still in your reach

Faster faster
Faster than the speed of life
Faster faster
Faster than the speed of life

Summer nights of secret fun
Moving farther out each day
Like a shooting star you're flying
Burning up what's in your way

Faster faster

Faster than the speed of life
Faster faster
Faster than the speed of life

Screaming through the walls of inhibition
Past the stream, you're breaking free
There you stand, attained and in confusion
Spread your arms and come to me

Faster faster
Faster than the speed of life
Faster faster
Faster than the speed of life
Faster faster faster
Faster faster faster
Faster than the speed of life
