

# Steppenwolf, Take What You Need

Take my hand sweet darlin' wipe that from off your face  
I don't love anyone but you no one can take your place but  
Sometimes I worry darlin' the way you seem to hoard my love  
Just take what you need, don't empty out the store  
Just take what you need 'cause I ain't got much more

Took a walk in the country, some peace of mind to find  
Wire fences everywhere, no place to rest my mind  
Seems like a shame to me the way some people hoard their land  
Just take what you need, don't empty out the store  
Just take what you need 'cause I ain't got much

Took a look in the paper While tryin' to eat a bite  
You know I read the evening news and lost my appetite  
Some have the nerve to ask for more respect from you and me  
Just take what you need, don't empty out the store  
Just take what you need 'cause I ain't got much

(Repeat 1st verse)
