

# Steps, A Love To Last

I was so preoccupied  
Couldn't see what was right before my eyes  
A love that's meant to last  
In misery my life was back to front  
I turned it round and decided what I want  
Is for our love to last

Last  
It seems that I always put you last  
But now I realize at last  
There's going to be a change  
(A time to change)

My commitment is to you and me  
Now I know what my poor heart really needs  
A love that's meant to last  
My emotions have been caressed  
So let me put one sincere request  
For our love to last

Last  
It seems that I always put you last  
But now I realize at last  
There's going to be a change

I was so preoccupied  
Couldn't see what was right before my eyes  
A love that's meant to last  
All I want is for our love to last

I've surpassed  
Love to last  
The future's cast  
Love to last
