

# Steps, Takin' Me Over

I used to think that I had left you far behind,  
But time has never quite erased you from my mind,  
Coz my heart keeps telling me your gone,  
Cant re-write history, move on;  
Just as i know what i should do  
Like a boat from the blue  
It wants you

Chorus

And im back to where i started broken hearted  
Never thought i could feel this way  
Just like we never parted look what youve started,  
Now your takin me over its  
Just like the first time again

I used to dream so much,  
But love would come and fall,  
Help me to face the facts  
I forgot that you werent gone  
My heart wont listen when they say  
you cant go back to yesterday  
Somehow i broke the golden rule  
Like a boat from the blue  
Im falling for you

Chorus

Instrumental  
(just like the first time, first time)

My heart keeps telling me your gone,  
Rewind this tragedy, move on,  
Just as i know what i should do  
Like a boat from the blue  
Im falling for you~

Chorus x2
