

# Steps, That's The Last Was Lost

When I think the tommorow night  
I Think I can't feel Insucure  
That' hope all was gone  
You were there with the else

Love never gonna found on you  
Baby, Go On and on now and now You're...

Gone with not last chance  
Gone with no regreting change  
Gone if love could make me better  
But not your love, Coz'...  
That's The last was lost

Lost...

When you'll be back in time  
We're didn't mean we're right  
the fallin' love was wrong  
you were left with else

Life never find the roll back  
Baby, go on and on now and now you're...

Back to Chours

Lost...  
Ah... Ah....  
Now all was Lost....

There something I wanna tell you (something)  
Trere are best infront of me (by the time)  
That'was the Last was Lost (On you Baby)  
So my move is moving On....

I dreamed It's over  
I Learned To better
