

Stereo 360, California

(Hills 3:13)

I'm gonna ride in a big jet plane
And you won't see me around here no more
The morning drive is never easy
It's always the same
And I don't want to be the one who closes my door
Cause I don't beat around

I got jumped for no reason
It wasn't safe for me anymore
That's why
I'm gonna live in California

I wanna fly in a plastic Chevrolet
Racing cars
See some stars
Just a few famous names
Life on Mars is just as hard
It could be all the same
Let's say goodbye to Nelly Ollson
And make other plans
I'm not going to stick around

I got jumped for no reason
It wasn't safe for me anymore
That's why
I'm gonna live in California
I'm gonna live in California
California
California

No I don't need anyone
No I don't need anyone
No I don't need anyone

I got jumped for no reason
It wasn't safe for me anymore
That's why
I'm gonna live in California

I got jumped for no reason
It wasn't safe for me anymore
That's why
I'm gonna live in California

California
California
