

# Stereo 360, Don't Belong

(Hills 3:58)

A simple world complicated  
Where nobody knows your name  
Tough to solve a crime  
Where no one's involved

And oh what a great place to be alone  
Just don't walk away

I don't belong here  
I'm just happy  
And it doesn't mean a thing  
I don't belong here  
I'm just happy  
And it doesn't change a thing at all

Why does it hurt to sing songs like yesterday  
Clear your eyes  
You've got nothing to hide

When you're old  
And you look behind  
That's your life

God it could be something to see  
If you wanna leave  
Don't walk away from me

I don't belong here  
I'm just happy  
And it doesn't mean a thing  
I don't belong here  
I'm just happy  
And it doesn't change a thing at all

Are you waiting for a quick solution  
Are you letting go too easy this time  
Are you running through tomorrow  
From what matters the most  
What's stopping today  
From wasting away

I don't belong here  
I'm just happy  
And it doesn't mean a thing  
I don't belong here  
I'm just happy  
And it doesn't mean a thing at all

And oh what a great place to be  
And oh what a great place to be
