

# Stereo 360, Original

(Hills/Galdames/Zimmerman/Moon 3:44)

Something happens when your heart beats  
Something happens when your heart beats next to mine  
I can see you on the front line  
I hope to see you on the front line

Something happens when your heart bleeds  
Something happens when your heart bleeds into mine  
I can see you on the front line  
I hope to meet you on the front line

Whoa whoa whoa whoa  
Oh whoa whoa

You're an original  
You're an original baby  
You're an original  
And just maybe you're so fine  
I've got you somewhere on my mind

Something happened at the starting line  
Something happened at the starting line  
Someone yelled go  
I can see you on the front line  
I hope to meet you on the front line

Someone kicked kicked up the radio  
Someone kicked kicked kicked the radio  
And God only knows  
I can see you on the front line  
I hope to see you on the front line  
And I've been waiting down this road so long

You're an original  
You're an original baby  
You're an original  
And I outta know  
And just maybe you're so fine  
I've got you somewhere on my mind

I wanna run away with you  
There's nothing more of me to lose  
Dear God  
It's not that hard to say  
But real life gets in the way

Maybe you're the Sunday after  
Morning overtime  
If you wanted to

You're an original  
You're an original baby  
You're an original  
Hell I gotta know  
And just maybe you're so fine  
I've got you somewhere on my mind

I wanna run away with you  
There's nothing more of me to lose  
It's not that hard for me to say  
When real life gets in the way
