

Stereo 360, Plastecine

(Hills 3:09)

A scenic drive is all I need
You can't tell me who to be
I just look at myself

Of all the places I should be
You stole them all away from me
I'm on my way
Now take a look at yourself

You're like a girl I've always wanted to meet
You're like a scene in a movie that I'll never get to see

I see you in a magazine
I'd rather play with plastecine
Than look at you

Operator operator
Get my thoughts on the line
I'm sick of feeling misused
Abused
Rewind
Maybe I'm misunderstood

I'm ready this time
To steal the show
My life's on a reel
And the picture keeps blowing all my lines
And the show star is blind

You're like a girl I've always wanted to meet
You're like a scene in a movie that I'll never get to see

I see you in a magazine
I'd rather play with plastecine
Than look at you
And I see you in a magazine
I'd rather play with plastecine
Than look at you

I'm Nullified
And I feel just fine
I feel just fine
I feel just fine

You're like a girl I've always wanted to meet
You're like a scene in a movie that I'll never get to see

I see you in a magazine
I'd rather play with plastecine
Than look at you

I'd rather play with plastecine
I'd rather play with plastecine
I'd rather play with plastecine
Than look at you
