

Stereo Fuse, Flesh & Blood

The waves are rollin' in and the sun is setting down
Another little day in this sleepy little town closer to the edge
Think about it all all over again hear your voice ringing in my head
Remember what you said

Please excuse me but I just don't understand
How can you refuse me when I need a friend
Go ahead and abuse me cause I just can't get enough
Please excuse me I'm only flesh and blood

You think that everything that glitters is gold
It's just a one way ticket to the loss of your soul closer to the edge
You believe what you want to believe you got your own eyes but you're too blind to see
Remember what I said

Please excuse me but I just don't understand
How can you refuse me when I need a friend
Go ahead and abuse me cause I just can't get enough
Please excuse me I'm only flesh and blood
