

Stereo Fuse, Hey You

Yes I have seen your kind seen them come and go
You're not the only girl in this world that I've ever known
You're not the only one to play these foolish games
You're not the only one to ever feel ashamed

Hey hey you what ya tryin' to prove
everybody says I love you
Hey hey you what ya tryin' to do
everybody says I love you

Yes I have heard the rumors you're just the talk of the town
I waited patiently but you never came around
You're not the only one to play these foolish games
You're not the only one to ever feel ashamed

Hey hey you what ya tryin' to prove
everybody says I love you
Hey hey you what ya tryin' to do
everybody says I love you

You're not the only one to play these foolish games
You're not the only one to ever feel ashamed

Hey hey you what ya tryin' to prove
everybody says I love you
Hey hey you what ya tryin' to do
everybody says I love you
