

Stereo MC's, Tales

I guess we've gone through changes
It don't matter at all
I seen stranger things at night
And I just let the whole thing wrong
I try to disguise the suns every night I gotta run
But? that will remind me that you're always by my side

Cause your love is like a lie to me
Cause it talks so many tales, yeah
Cause we're moving synchronicity
And it never ever fails, what I ever go and leave hone?
What I ever go and leave home? /3x
Leave home, leave home, leave home, leave home, leave home

Somebody reach my, I'm not the keeper of time
I gotta keep helping mind and body that gonna make thing feel nice
Why don't we smoke? praying every hit is right
Cause it's always something that will remind me
That you're always by my side

Cause your love is like a lie to me
Cause it talks so many tales, yeah
Cause we're moving synchronicity
And it never ever fails, what I ever go and leave hone?
What I ever go and leave home? /5x
