

Stereolab, The Way Will Be Opening

The Way Will Be Opening
Total insubordination
Complete revolt, formal sabotage
Still it must be stressed that on this port
There is no room for compromise
Faint, all our crime is crime of physical setting
Except inside the mind (All inside the mind)
How come more and more futile
The American dream is the fertilize? (oh the fertilize)
Nothing at all can be expected
Except for the use of violence
Nothing at all can be changed if
Evolution turned us to silence
Confrontations clearing the way
Will be opening (will be opening)
Not as end in itself
But as a beginning (as a beginning)
