

# Stereomud, Drop Down

Synthetic pathetic the words you tell me  
You try to trick me  
Hypotonic demonic and always scheming  
Won't let me be  
Erratic fanatic you move too quickly  
You can confuse me  
Heretic genetic a new condition  
Your twisted mind drops down

What you think  
You don't know me  
What you think  
You don't know me

Never want to do anything but bring me down  
You just bring me down you bring out my hatred  
Never want to do nothing but bring me down  
You just bring me down you bring out my hatred

The logic methodic you're never changing that's how you think  
Sadistic statistic what's the matter don't you like the pain  
Frantic you panic there's no escaping cause you ran too late  
Realistic horrific you can't stop me you see me coming drop down

What you think  
You don't know me  
What you think  
You don't know me

Never want to do nothing but bring me down  
You just bring me down you bring out my hatred  
Never want to do nothing but bring me down  
You just bring me down you bring out my hatred

Can't justify the pain you put me through [4 times]

you make me bleed from the back stabbing  
You make me hate with your attitude  
Lied from the start you told me everything but the truth

Never want to do nothing but bring me down  
You just bring me down you bring out my hatred  
Never want to do nothing but bring me down  
You just bring me down you bring out my hatred

You make me bleed from the back stabbing  
You make me hate with your attitude  
Lied from the start you told me everything but the truth
