

# Stereophonics, Since I Told You It's Over

I'm Black and blue  
From the wind and the rain  
I said I'm sorry for  
All the lies and the pain  
I never ever meant to make you cry  
If I could take it back  
You know I would  
I'd rather burn up and die

So take a look at me now  
Since I told you it's over  
You gotta hole in your heart  
I found a four leaf clover  
You can't tell me this now  
This far down the line  
That your never, ever gonna get over me

You sound a cross, it's a cross I bear  
Your drinking hard, your up late  
Without a hope or a care  
Your making do, to please who  
Hope it makes you smile  
Your not around for long,  
You gotta savour what's gone  
And move your life right along

So take a look at me now  
Since I told you it's over  
You gotta hole in your heart  
I found a four leaf clover  
You can't tell me this now  
This far down the line  
That your never, ever gonna get over me

I'm lost and cold  
And getting old  
My head is full of lies I told  
I've been down, been around  
But I've fallen on my  
Own two feet, i felt  
I Left you out to drown  
I never meant for that

I look around, sometimes I stare  
I think back, now and then, I hope  
You know I care  
I walked away that day  
Time to treat you right  
But you were on your track  
It was me turning back  
I left you freezing outside

So take a look at me now  
Since I told you it's over  
You gotta hole in your heart  
I found a four leaf clover  
You can't tell me this now  
This far down the line  
That your never, ever gonna get over me  
Never get over me  
Never get over me

But you were on your track, it was me turning back  
I left you freezing outside

So take a look at me now  
Since I told you it's over  
You gotta hole in your heart  
I found a four leaf clover  
You can't tell me this now  
This far down the line  
That your never, ever gonna get over me (repeat to fade)
