

Steriogram, Just Like You

What's happening, what's cracking
For two minutes twenty seconds
Long day drive on searching through to find that song
Good sex mad text
Its all gone wrong oh what is next
Old mates first date oh man your running late
Just like you, just might do
What we do is watching you now
Overstate intoxicated
Relocate sophisticated
Getting fat the keg is tapped
Its time for us to mack
Phone call too scared
Ring her now so unprepared
To board, no friends
New towns outside see where it ends
Broken hearted, bad blood
Just got fired
So much love
Home alone night in
When will this life begin
I just wont let it be
Let it fly
I just wont let it breathe
Stop staring in my eyes
Stare and let it go
I know that you wont stay
You wont be
Stop staring in my eyes.
