

# Steve Earle, Annie, Is Tonight The Night

Here I am again, now, acting like a crazy fool  
Every time I get to rockin', I always run into you  
I never did understand why you want to be so cruel  
Well, Annie, is tonight the night?  
Do you think the moon is right?  
You don't have to tell me you will  
Just say that you might  
I know you told me once  
I guess you coulda told me twice  
I guess I keep hopin' some day you're gonna treat me nice  
I'm tryin' to get next to you  
Cold as ice  
Well, Annie, is tonight the night?  
Do you think the moon is right?  
You don't have to tell me you will  
Just say that you might  
Now I'm not fool enough thinkin' I'm the only one  
Got me comin' and a-goin' till I'm about to come undone  
Not tryin' to find love  
I'm lookin' for a little fun  
Well, Annie, is tonight the night?  
Do you think the moon is right?  
You don't have to tell me you will  
Just say that you might  
Well, Annie, is tonight the night?  
Do you think the moon is right?  
You don't have to tell me you will  
Just say that you might
