

# Steve Earle, Close Your Eyes

I dreamed you were standing  
On the edge of the world  
And I thought I heard you call out  
With one foot on the rock  
And one a cloud  
Was it just the wind that I heard  
Close your eyes  
This world won't stop spinning you know  
Close your eyes  
Why don't you just let go  
Thousands of people searchin' out there  
Most of em lookin' for love  
But nothing is something  
That there's plenty of  
In time we'll all get our share  
When I was a child  
And they put me to bed  
They always took care that I prayed  
But the part that goes, if I should  
Die fore I wake  
Echoed all night in my head
