

Steve Earle, Comin' Around

(with Emmylou Harris)

Early this mornin' I was washin' my face
Thinkin' bout goin' to town
Sick and tired of hangin' around this place
Waitin' on the blues to track me down
Bless my soul maybe I'm comin' around
Been lyin' low but maybe I'm comin' around

I've been runnin' nearly all of my life
Far and as fast as I can
It may sound funny but I'm thinkin' this might
Be about right where I came in
Well I don't know maybe I'm comin' around
Got a ways to go but maybe I'm comin' around
Finally layin' my burden down

One fine day
I'll be free
Til it comes
I'll go on

My heart's a little ragged but it's all that I got
So I'm gonna give it a try
Look out world I'm comin' ready or not
I don't wanna let you pass me by
Here I go maybe I'm comin' around
I'm a little bit slow but maybe I'm comin' around
Finally layin' my burden down
