

# Steve Earle, Comin' Around

(with Emmylou Harris)

Early this mornin' I was washin' my face  
Thinkin' bout goin' to town  
Sick and tired of hangin' around this place  
Waitin' on the blues to track me down  
Bless my soul maybe I'm comin' around  
Been lyin' low but maybe I'm comin' around

I've been runnin' nearly all of my life  
Far and as fast as I can  
It may sound funny but I'm thinkin' this might  
Be about right where I came in  
Well I don't know maybe I'm comin' around  
Got a ways to go but maybe I'm comin' around  
Finally layin' my burden down

One fine day  
I'll be free  
Til it comes  
I'll go on

My heart's a little ragged but it's all that I got  
So I'm gonna give it a try  
Look out world I'm comin' ready or not  
I don't wanna let you pass me by  
Here I go maybe I'm comin' around  
I'm a little bit slow but maybe I'm comin' around  
Finally layin' my burden down
