## Steve Earle, Everyone's In Love With You

Everyone's in love with You Everyone's in love with you But you don't seem to mind But it must be tough when you're cleanin' up Them broken hearts sometimes Or maybe you just struggle through And leave 'em where they lie But everyone's in love with you In love with you Everyone's in love with you They fall down at your feet And impale themselves knowin' full well You'll only watch 'em bleed And they won't stop 'til the final drop 'Cause they think it's what you need And everyone's in love In love with you You want everyone to want you But you don't want anyone to need you 'Cause baby you don't need to Everyone's in love with you Or don't you think I know The way they all light up when you show up And you're baskin' in the glow I'd like to say that I ain't that way Like all your other fools But everyone's in love with you And I am, too I am, too
