Steve Earle, Here I Am

Here I Am On my way Down another road I've have paved With every good intention I've saved And hearts that I broke As for me I got scars For every mile I've traveled so far And some blood on my hands Here I am With a song in my heart And an attitude from the start I took everybody apart To see how they work I got friends that I owe I ain't namin' names Cuz they know where they stand Here I am Here I am Here I am Here I am If I went back where I've been And I knew what I know now then Well I'd probably do it again Cuz I'm just a man At the end of the day I ain't got nothing to say Here I am

Here I am
