

# Steve Earle, I Thought I Was Dreaming

Chorus:

I thought I was dreaming  
The moon was hangin' in a clear blue sky  
You were standin' there screaming  
And I didn't have a clue as to why  
I thought I was dreaming  
Cause all I heard you say was goodbye  
I thought I was dreaming

I would make up reasons  
You were not at home  
Your history of demons  
Callin' on the phone  
I check the locks each night  
I check 'em once again  
To keep the cold, cruel world outside  
And keep you safe within'

Repeat chorus

No one has to know  
No one has to see  
All your childhood secrets  
Are safe right here with me  
Let me soothe your fever  
Let me bring you peace  
Let me take you away from all these  
Masters of deceit

Bridge:

So far, so far away we'll go  
So far, so far away and where we'll stop nobody knows

Repeat chorus

I thought I was dreamin'  
I thought I was dreamin'  
I thought I was dreamin'  
All I heard you say was good-bye
