## Steve Earle, Slippin' Away

Back in my old home town There were long summer days And there were leaves on the ground And it was too cold to play

The city's colder than cold It's faceless and gray And all the dreams that you hold Keep slippin' away

Chorus:

Slippin' away, slippin' away Little by little, day by day Slippin' away, slippin' away Little by little and day by day

I saw an old friend of mine

Asked if he was ok And he said everything's fine But his eyes filled with pain

Yeah, he had nothin' to lose He had nothin' to say He feels worn out and used And slippin' away

Chorus

Better put up a fight Start right here today It's time you start right Before you just slip away

Chorus x 2
