

# Steve Earle & The Dukes, Everyone's In Love With

Everyone's in love with You  
Everyone's in love with you  
But you don't seem to mind  
But it must be tough when you're cleanin' up  
Them broken hearts sometimes  
Or maybe you just struggle through  
And leave 'em where they lie  
But everyone's in love with you  
In love with you

Everyone's in love with you  
They fall down at your feet  
And impale themselves knowin' full well  
You'll only watch 'em bleed  
And they won't stop 'til the final drop  
'Cause they think it's what you need  
And everyone's in love  
In love with you

You want everyone to want you  
But you don't want anyone to need you  
'Cause baby you don't need to

Everyone's in love with you  
Or don't you think I know  
The way they all light up when you show up  
And you're baskin' in the glow  
I'd like to say that I ain't that way  
Like all your other fools  
But everyone's in love with you  
And I am, too  
I am, too
