

# Steve Earle & The Dukes, When The People Find

It's late at night  
You're all alone  
Pale moonlight  
Cold as stone  
Heart beats fast  
Time moves slow  
Strangers glance  
Does he know  
Where you gonna run to  
Where you gonna hide  
Where you gonna run to  
Where you gonna hide  
Where you gonna run to  
Where you gonna hide  
When the people find out  
That you lied  
They took you in, made you well  
They told you things, they never tell  
To pay the debt, you made em fools  
That's what you get, they trusted you  
When they run to the temple and find  
That the treasure's gone  
Do you think it's gonna be a cross  
They're gonna nail you on
