Steve Earle & The Dukes, Windfall

Now and then it keeps you runnin'
Never seems to die
Trails spin with fear
And not enough livin' on the outside
Never seem to get far enough
Stayin' inbetween the lines
Hold on to what you can
Waitin' for the end
Not knowin' when

Chorus:

May the wind take your troubles away May the wind take your troubles away Both feet on the floor Two hands on the wheel May the wind take your troubles away

Tryin' to make it far enough To the next time zone

Few and far between past the midnight hour You never feel alone You're really not alone

Switchin' it over to am Searchin' for a truer sound Can't recall the call letters Steel guitar and settle down

Catchin' an all night station Somewhere in louisiana It sounds like 1963 But for now it sounds like heaven

Chorus

May the wind take your troubles away May the wind Take your troubles away
