Steve Hackett, Blues With A Feeling

Blues with a feeling, that's what I have today Blues with a feeling, that's what I have today I'm gonna find my woman if it takes all night and day

What a lonesome feeling when you're by yourself What a lonesome feeling when you're by yourself When the one that you're loving has run off with someone else

You know I love you baby Tell you the reason why Gone and left me, baby Left me here to cry

Blues with a feeling, that's what I have today I will find my woman if it takes all night and day

What a lonesome feeling ... repeat as before

You know I love you baby Tell you the reason why Gone and left me, baby Left me here to cry

Blues with a feeling, that's what I have today I will find my woman if it takes all night and day
