

# Steve Harley, (I BELIEVE)LOVE'S A PRIMA DONNA

i should say by the way that you're acting today  
i can tell by the sigh in your eye  
i can sure understand by the palm of your hand  
that you know i'm so hot i could fry  
because i've chased you, embraced you 'n' turned round  
'n' faced you  
crowned you the truth of my youth  
but you give me the line in the words of our time  
it's like living a stew that's what most lovers do  
it's like escaping the sun, there's nowhere you can run  
Chorus: i believe, i believe love's a lover's honour  
i believe, i believe love's a prima donna too  
i shoulda guessed by the rest of the men that you've blessed  
i was only an eye for an eye  
but you wanted a part of my innocent heart  
i was only your ship in the night  
i shoulda knew, shoulda knew i was out just for you  
i believe in the power of the night  
but like a fool i was had, now it's driving me mad  
i was only a prize in your libertine eyes  
i had it coming to me i was too late to see  
Chorus: i believe, i believe love's a lover's honour  
i believe, i believe love's a prima donna too  
i could fight with the might of a thief in the night  
i could kick, i could tear at your hair  
i could break you in two like a man ought to do  
but the woman i see has a right to be free  
and the woman i need is a mischievous breed  
don't wanna live in a stew that's what most lovers do  
it's like escaping the sun, there's nowhere you can run  
Chorus: (fade)
