

Steve Harley, (LOVE)COMPARED WITH YOU

i been trying to write this line
but the years've gone by in no time
and you know that it's not easy for a boy in love
but i had to find a clue
and it could only come from you
like a waterfall you tingle me with your love
Chorus: and you know that since you loved me I have everything
and you know that since you loved me it's been easy
all the things that i been through
don't mean a thing compared with you
you can give me life forever in a moment
you carry me like a child and you're a goddess when i'm wild
when i'm desperate in black you are golden
Chorus: and i confess...
i'm in love with you (ad inf)
