

# Steve Hillage, Sea Nature

I'm walking on the land  
But my mind is under the sea  
The fish in the sky just swim on by  
And the birds in my brain keep on singing  
The trees seeds are sowing beneath the ether  
It's time for my soul to go.

Swimming inside Nature  
Diving through the flowers  
Popping out at the bottom of the sea  
In minutes that seem like hours.

I want you to come with me  
Journeying with your mind

We'll learn to feel the Devas  
And feed them with our vibes  
Hear the music of the spheres through the ears  
Of the cauliflowers and the living grass that breathes.

I want you to come with me  
Journeying with your mind

So let's dive below the waves of words  
And sink beneath the turbulence  
And leave the restless images behind us  
To touch the secret power of nature  
Under the sea.

(UNDERWATER VOCODER POEM)

Way down  
Way down  
Way down below the ocean  
We'll be riding our emotion  
Way down  
Way down  
Way down below the ocean  
We'll be riding our emotion.
