

# Steve Kilbey, Silencer

The silence is wrong  
He/You can't find the hotel  
It was a while back  
It's just a shell  
And the place where it stood  
Just a field full of weeds  
It's a done deal (don't forget the silencer)

In a black mood  
In a gray land  
It's king harvest again  
In the gray sand  
And the thorns are all dough  
Just a field full of weeds  
It's a done deal (don't forget the silencer)

She's a mystic beat  
He's a brutal ride  
Let's go to ???  
Let's go inside there  
This angry is cloudy  
The music is dragging  
It's a done deal (don't forget the silencer)

In the candlelight  
That's what we paid you for  
Perfect disgrace  
Through the screen door  
We see the low boy bring  
Just a field full of weeds  
It's a done deal (don't forget the silencer)

It's an ink blot  
You're a blue suit  
You're a character  
You're a smooth loop [3:02]  
I'm cutting out the start  
It's rushing at the end  
It's a done deal (don't forget the silencer)
