

Steve Kilbey, Weightless & Wild

Well the worm, deep down and cold
Has finally turned, burned down and sold
See the day, three more to go
Pull up it's wings and fade
And you find you're easily gone
And you think something's moved on
But you're wrong, yeah you're wrong
And I believed you so long

Watch me smile, gold dust and pearls
Watch me run a crooked mile, you've lost the world
Watch me fall, weightless and wild
We will not go out in style

And you find you're easily gone
And you think you really belong
Well you're wrong, yes you're wrong
And I believed you so long

Well the worm, deep down and cold
Has finally turned, burned down and sold
See the day, three more to go
Pull up it's wings and fly away
And you find you're easily gone
And you thought it's the end of the song
Well you're wrong, yeah you're wrong
And I believed you so long
