

Steve Perry, Go Away

(Perry, Goodrum)

We meet again
Right in the middle
Of a love I knew before
Another girl, she looks a lot like you

I'm cruisin' many
So are you
That's the way we both should do
I don't know why we had this rendez-vous

Go away, go away
I sing goodbye to you
When the song is gone, you'll be on
On to someone new

So here we are
Right in the middle
In the same place stuck before
You'll have to find another place to play

Oh, I know I want to hold you
Right in the middle
Like I held you once before
But something's saying
That that's a big mistake

Why don't you go away
Go away, I sing goodbye to you
When the song is gone, you'll be on
On to someone new

What you wanted
I gave it to you
In every way that you wanted to, oh
Don't make a move
If you ever cared for me

Go away, go away
I sing goodbye to you
When the song is gone, you'll be on
On to someone new

Go
What you, what you gonna do, gonna do
Oh, go
What you, what you gonna do, gonna do
