

# Steve Rushton, Emergency

started with a movie  
at a friend's house  
told a joke to  
make you notice me  
i can't believe i got  
your full attention  
never had this  
kind of chemistry  
told you stories  
of long ago  
why'd i open up  
i don't know  
this is getting serious  
never felt like this before  
swimming into dangerous  
water for sure  
it kills me  
when you're  
not with me  
this is an emergency  
acting under urgency  
someone get the doctor please  
it's an emergency  
c-c-can't breathe  
i c-c-can't breathe out  
Love is suffocating me  
but i kinda like to be  
lost in all your energy  
it's an emergency  
she's coming for me now  
whoo whoo  
whoo whoo  
whoo whoo  
wanna tell you girl  
you really got me  
my heart is stuck under  
your lock and key  
i think i'm coming  
over in a fever  
burning as i'm  
dropping to my knees  
to a destination unknown  
sorry friends  
but i got to go  
this is an emergency  
acting under urgency  
someone get the doctor please  
it's an emergency  
c-c-can't breathe  
i c-c-can't breathe out  
Love is suffocating me  
but i kinda like to be  
lost in all your energy  
it's an emergency  
she's coming for me now  
whoo whoo  
whoo whoo  
whoo whoo  
it kills me  
when your not  
with me  
here tonight  
why oh why ?
