

# Steve Rushton, Everything I Want

You started up first day  
At Seven or maybe Eight  
You crashed into my life with a boom  
You came over as a guest  
I said I like you and I confess  
About ten o'clock I was making fun of you  
You stayed for a while  
Then left with a Smile  
But at least i made you happy  
You made me happy too  
Its kinda cheezy to say but  
YOU'RE everything I want  
When i'm with you i overheard and stop  
YOU'RE anything that fits my love  
And i'll never replace you  
'Cause i'll never find love so true  
Its only been three days  
You're playing the waiting game  
And acting cool when we're not together  
I drove you hame from school  
When I'm with you i feel so tool  
I wish this feeeling would last forever  
And I stare into space  
My heart starts to race  
At least i've got your picture  
You gave me yesterday  
Its kinda cheezy to say but  
CHORUS (scroll back up if you have to)  
Looking back at us  
Two years and we're going strong  
They say time flys when you're having fun  
I never wanna be alone AGAIN no no  
No, you're everything I want  
When I'm with you I overheard and stop  
YOU'RE anything that fits my love  
No, you're everything I want  
YOU'RE everything I want  
And I'll never replace you  
'Cause I'll never find love that's so true
