

# Steve Winwood, Help Me Angel

Help me angel  
Plant my feet a little higher  
Help me angel  
I've been too close to the fire  
Help me angel  
Make my dream a little brighter  
Help me angel  
Help me turn on all the lights  
You've seen all the sights  
You've lived through all the nights  
You've got something I have to know  
'Cause I've still got far to go  
Help me angel  
'Cause it's so dark everywhere  
Help me angel  
Find the magic in the air  
When sun's going down  
And light leaving town  
Something's shining deep in your eyes  
Sunday morning, endless sunrise  
You've got what I have to find  
In the sunshine in your mind
