

Steven Tyler, Love Is Your Name

Send your kisses my way
Bring your sweet heart to me
I've been waiting for so long

Tell me all your stories
Leave some open for me
Write your name into this song

I walk through the fire
Run through the rain
I'll wait for forever
If love is your name
Catch your wind from heave

Send them while you're sleeping
Wake me with the morning sun
I'll dream of you until you come

I walk through the fire
Run through the rain
I'll wait for forever
If love is your name
