

Stevie Nicks, Bombay Sapphire

You--beloved
Were to me--everything
That love stood for
To love one another for awhile
Was enough--
It was all that I lived for
How can I go on without you
How can I go on--without you
I tell myself--this time
I'm going to have to--
Move on

Chorus:
It's like
Bombay sapphire
Hey I can take you higher
Whatever you desire
I can mend your heart

It is green
It is aqua marine
It is colors I have never seen
I can see past you--to the white sand...
It is blue
It is not about you
It is all true
You know--who I am

And she says, the sea never changes--not really
It is the constant in my life
I always return here
To the flash of those colors
Through every window
The wind through the night
Here I am dramatic
Here I am not waiting
For the call of the wind

Chorus

It's like purple haze
It's there every day
Its passion never fades
You know what I mean
