

# Stiff Little Fingers, Dust In My Eye

I need no help, no aid  
I don't need your assistance  
I stand alone my friend  
And you can walk on by  
Don't think I'm lonely  
Cos I'm drinking here alone  
Sometimes it's easier  
To spend time on my own

[Chorus:]  
You didn't mean to make me sad  
You didn't aim to make me cry  
I wouldn't really feel so bad  
It's just dust in my eye

You were my yesterdays  
I'm looking for tomorrows  
You keep the fun you had  
And I will keep the sorrows  
I know it's over  
And I'm happy that you're gone  
At least I realise  
That I'm the lucky one

[Chorus:]  
You didn't mean to make me sad  
You didn't aim to make me cry  
I wouldn't really feel so bad  
It's just dust in my eye
