

# Stiff Little Fingers, Roots, Radicals, Rockers And

You roots, you radicals, you rock to the reggae  
You roots, you radicals, you dub to the reggae  
You roots, you radicals, you skank to the reggae

Let there be peace in the east, peace in the west  
You roots, you radicals and all the rest  
Peace up north, peace down south  
Peace in the ghettos all round about

We are all in a one and one in all  
So throw away the guns and the war's all gone  
So throw away the hunger and the war's all gone  
So throw away the fighting and the war's all gone  
So throw away the grudges and the war's all gone

You roots, you radicals, you rock to the reggae  
You roots, you radicals, you dub to the reggae  
You roots, you radicals, you skank to the reggae

Love and respect your itren and protect your little sistren  
And the same shall return to you, my friend  
Don't fight against no colour class or creed  
For on discrimination does violence breed

We are all in a one and one in all  
So throw away the guns and the war's all gone  
So throw away the hunger and the war's all gone  
So throw away the fighting and the war's all gone  
So throw away the grudges and the war's all gone

You roots, you radicals, you rock to the reggae  
You roots, you radicals, you dub to the reggae  
You roots, you radicals, you skank to the reggae

Comfort the afflicted and keep them from harm  
Let age be protected and the infants be strong

Go for it!

You got to pass the bowl and make the food go round  
Cos that's the only way to trample crime to the ground  
Equal rights and justice for one and all  
Cos only through liberty freedom shall form

Don't fight against no colour class or creed  
For on discrimination does violence breed

We are all in a one and one in all  
So throw away the guns and the war's all gone  
So throw away the hunger and the war's all gone  
So throw away the fighting and the war's all gone  
So throw away the guns and the war's all gone  
So throw away the hunger and the war's all gone  
So throw away the fighting and the war's all gone  
So throw away the grudges and the war's all gone
