

# Stiff Little Fingers, Stand Up And Shout

It's time to ask yourself just what you want to be  
Just look around tell me exactly what you see  
No sitting out no time to settle in your place  
You're with us now don't be a name without a face

[Chorus:]

Stand up and shout  
For what you want to be  
Stand up and shout  
What you believe  
Stand up and shout  
For those you want to free  
Stand up for the one and only

Get on your feet and raise you fist up for the count  
What's yours is yours if you just stand up and shout  
No looking back you got to play the cards you're dealt  
Break down the barricades and speak up for yourself

Don't you know who speaks up for you  
You can't rely on no-one else to pull you through

So what you're thinking might be what we want to hear  
Don't keep it hidden got to shout your message clear  
No easy answers when the question is self doubt  
Better wrong than silent gotta let your feelings out
