

Stiff Little Fingers, You Can Move Mountains

And if life starts to get you down
Don't fall and go under
Or if it's pushing you around
Don't think of surrender
Or if you feel like crying
Don't give up you can't give up no
Just give it one more try
And don't give up the fight

[Chorus:]
Cos you can move mountains
You can do anything you choose
You can move mountains
When you find it's down to attitude

And when the boss gets on your back
And you've got to take it
Don't think it's something that you lack
Just believe and you'll make it
And if he's grinding you down
Don't give lip you can't give up no
I know you'll turn it around
And don't give up the fight
