

# Stina Nordenstam, Dynamite

The film they show is  
sad and boring  
The morning shot from a diving bell

Forgetting you is like  
breathing water  
There's got to be a better way

Dynamite  
A thing you said once  
made me wonder  
What can go away as fast as love

First the light  
and then the thunder  
I've been up all night and I got it now

Dynamite

All day I  
did things slowly  
Walked in circles round your home

I had something to add  
to the things you showed me  
I've got it here underneath my coat

Dynamite
