

Sting, Peanuts

Written by sting & stewart copeland

It's all a game
You're not the same
Your famous name
The price of fame

Oh no, try to liberate me
I said oh no, stay and irritate me
I said oh no, try to elevate me
I said oh no, just a fallen hero

Don't wanna hear about the drugs you're taking
Don't wanna read about the love you're making
Don't wanna hear about the life you're faking
Don't wanna read about the muck they're raking

You sang your song
For much too long
There's something wrong
The [your] brain has gone
Oh no, try to liberate me
I said oh no, stay and irritate me
I said oh no, try to elevate me
I said oh no, just a fallen hero

Don't wanna hear about the drugs you're taking
Don't wanna read about the love you're making
Don't wanna hear about the life you're faking
Don't wanna read about the muck they're raking

It's all a game
You're not the same
Your famous name
The price of fame

Oh no, try to liberate me
I said oh no, stay and irritate me
I said oh no, try to elevate me
I said oh no, just a fallen hero
Oh, you're just a fallen hero

Don't wanna hear about the drugs you're taking
Don't wanna read about the love you're making
Don't wanna hear about the life you're faking
Don't wanna read about the muck they're raking

Don't wanna find out what you've been taking
Don't wanna read about the love you're making
Don't wanna hear about the life you're faking
Don't wanna read about the muck they're raking

Don't wanna find out what you've been taking
Don't wanna read about the love you're making
Don't wanna hear about the life you're faking
Don't wanna read about the muck they're raking

Peanuts, peanuts
Peanuts....
